

Construction Work of Combined Mechanical Car Parking as the first project in Malaysia is scheduled to start in October

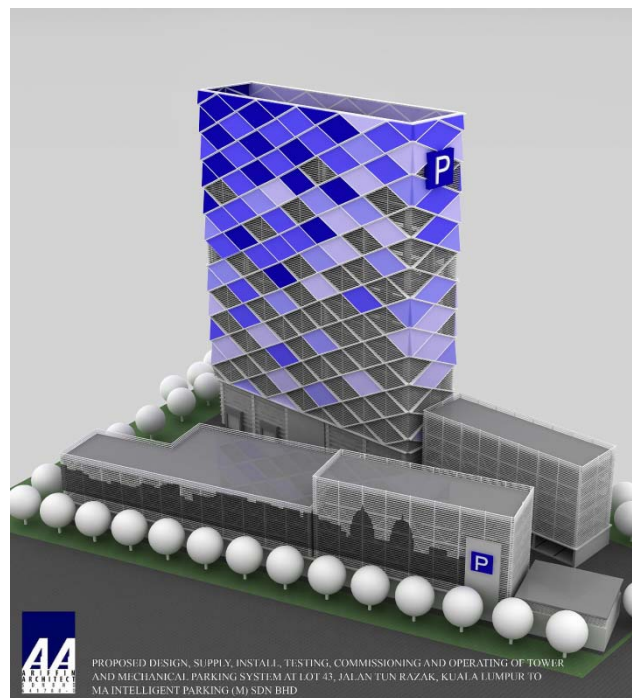

Nissei Build Asia Pte. Ltd. (Headquarters: Singapore, Representative Director: Mr. Nobu Tanida) ("NBA") which is 100% subsidiary of Nissei Build Kogyo Co., Ltd. (Headquarters: Kanazawa, Ishikawa, Japan, President: Mr. Atsuhiko Morioka) has scheduled to start the construction work of the mechanical car parking combined the Tower Parking and the multi story mechanical car parking as the first project in Malaysia in October 2014.

NBA received the order of 4 sets of Tower Parking for 176 parking lots and multi level mechanical car parking for 155 parking lots for "LOT43 Jalan Tun Razak Parking Project" which are built at the land owned by the government, currently used as plane parking space, in the center of Kuala Lumpur, the capital city of Malaysia.

Construction of this car parking is scheduled to be completed in June 2015 and this car parking will be operated by M. A. Intelligent Parking (M) Sdn. Bhd. after completion.

This car parking also to be displayed as models of the multi story car parking and it will enhance visibility of our car parking products in Kuala Lumpur.

In Kuala Lumpur, as chronic traffic congestion and shortage of car parking are getting worse, demand of the multi story car parking is expected for office building, commercial building, residential complex, etc,

NBA will accelerate development of the multi story car parking market in ASEAN countries taking advantage of this project.
